

SEMCOG 2030 Regional Development Forecast (RDF) Population by Age Group by Community

September 2002

© SEMCOG 2002

Abstract

This report contains a population forecast by five age groups — 0-4, 5-17, 18-34, 35-64, and 65 and over — in Southeast Michigan communities. The forecast numbers are derived from SEMCOG's 2030 Regional Development Forecast, and run from 2005 to 2030 by five-year intervals. Numbers for 1990 and 2000 are from the U.S. Census Bureau.

Preparation of this document was financed, in part, through grants from the U.S. Department of Transportation, Federal Transit Administration and Federal Highway Administration, through the Michigan Department of Transportation and local membership dues.

Permission is granted to cite portions of this publication with proper attribution. The first source attribution must be SEMCOG, the Southeast Michigan Council of Governments. Subsequently, SEMCOG is sufficient. Reprinting in any form must include the publication's full title page.

SEMCOG releases age forecast by community; All communities will see significant increases in elderly population

By 2030, Southeast Michigan will be home to nearly twice as many people over age 65 than there were in the 2000 Census, according to data released by SEMCOG, the Southeast Michigan Council of Governments.

The 562,000 increase in people over age 65 in 2030 means that this age group will grow more than any other age group and that growth will be significant in nearly every community in Southeast Michigan.

The age-65-and-over group will more than double in each of Southeast Michigan's counties, except Wayne, which will see a 69 percent increase. In the region's largest communities, the age-65- and-over population will increase substantially, while total population and most other age groups decrease or increase only slightly.

Region's largest communities	Percent change 2000-2030, age 65 and over	Percent change 2000-2030, total population
Detroit	47%	-9%
Warren	67%	-7%
Sterling Heights	127%	.4%
Ann Arbor	120%	1%
Livonia	76%	-8%
Dearborn	32%	9%
Clinton Township	104%	13%

Even in the fastest-growing communities in Southeast Michigan, the 65-and-over age group will grow significantly more than other age groups.

Region's fastest-growing communities	Percent change 2000-2030, age 65 and over	Percent change 2000-2030, total population
Chesterfield Township	264%	66%
Canton Township	271%	40%
Pittsfield Township	365%	114%
Macomb Township	485%	120%

SEMCOG's age forecast projects age-group population in five-year increments from 2000 through 2030. Over this 30-year time period, the baby boom generation will move from the 35-54 age group (a key segment of the working-age population) to the 65-and-over age group. By 2030, all of the baby boomers will be over age 65, traditionally the age when most people retire from work. These retirement-age baby boomers will be the major factor in the nearly doubling of the 65-and-over age group population by 2030. In 2000, the 65-and-over age group totaled 567,200; in 2030, this number will be 1,130,000. Another aspect of this shift is the continued increase in longevity. This is especially evident in the oldest segment of the 65-and-over group — those 85 and over — which will also double in size by 2030, up from 66,000 to 133,200.

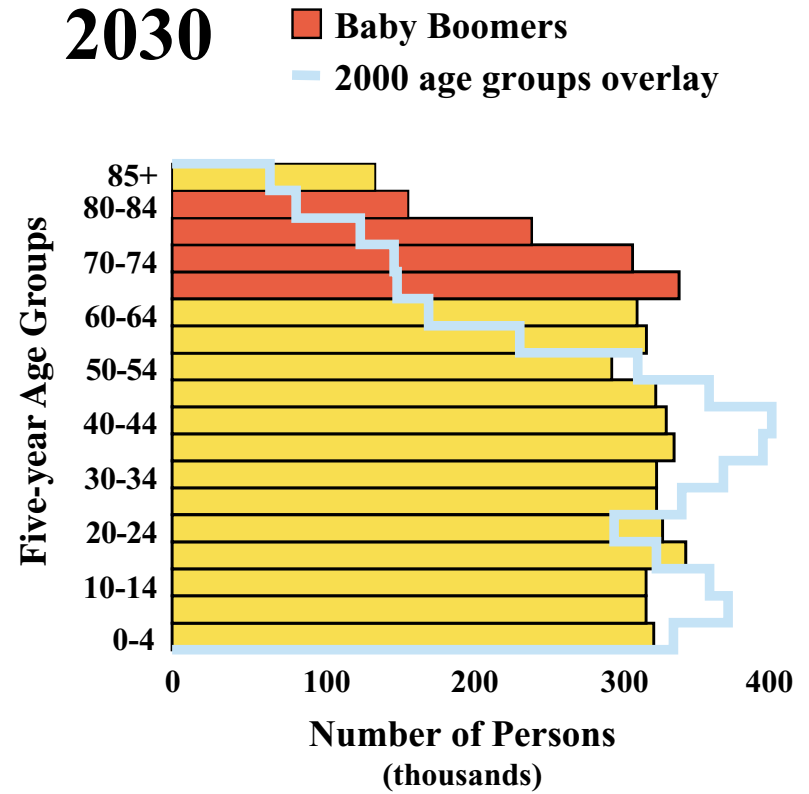

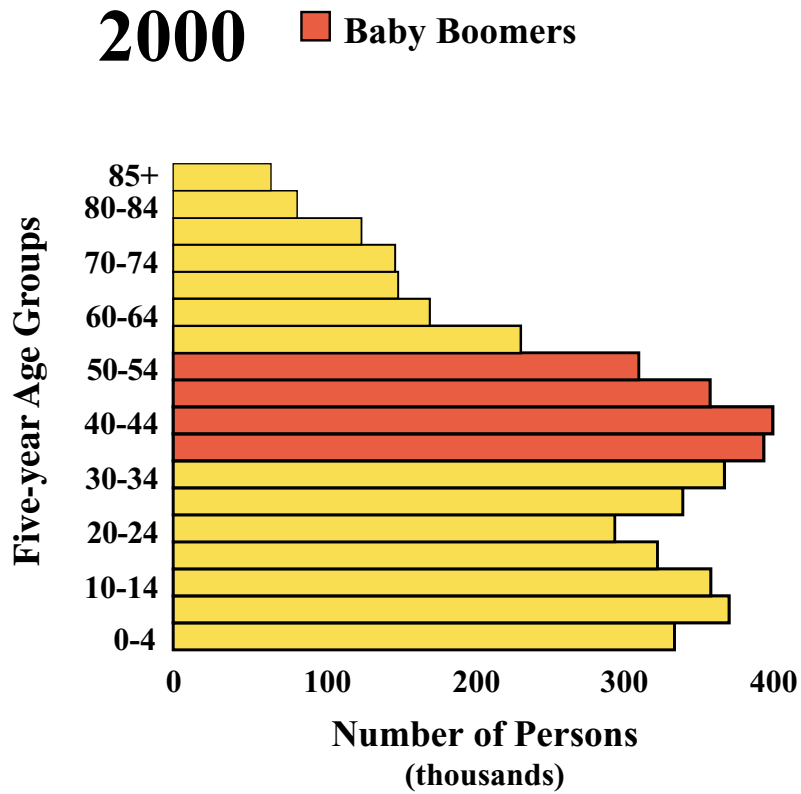

"These numbers tell communities that they will need to prepare for a significantly older population in the future," notes Jim Rogers, SEMCOG Data Center Manager, who oversaw the compilation of this report. "Service jobs relating to the elderly will grow. The school buildings of today may become the senior centers of tomorrow."

Age forecast data are broken down by county and community. These data are available on SEMCOG's Web site at www.semco.org or by calling Information Services at 313-961-4266.

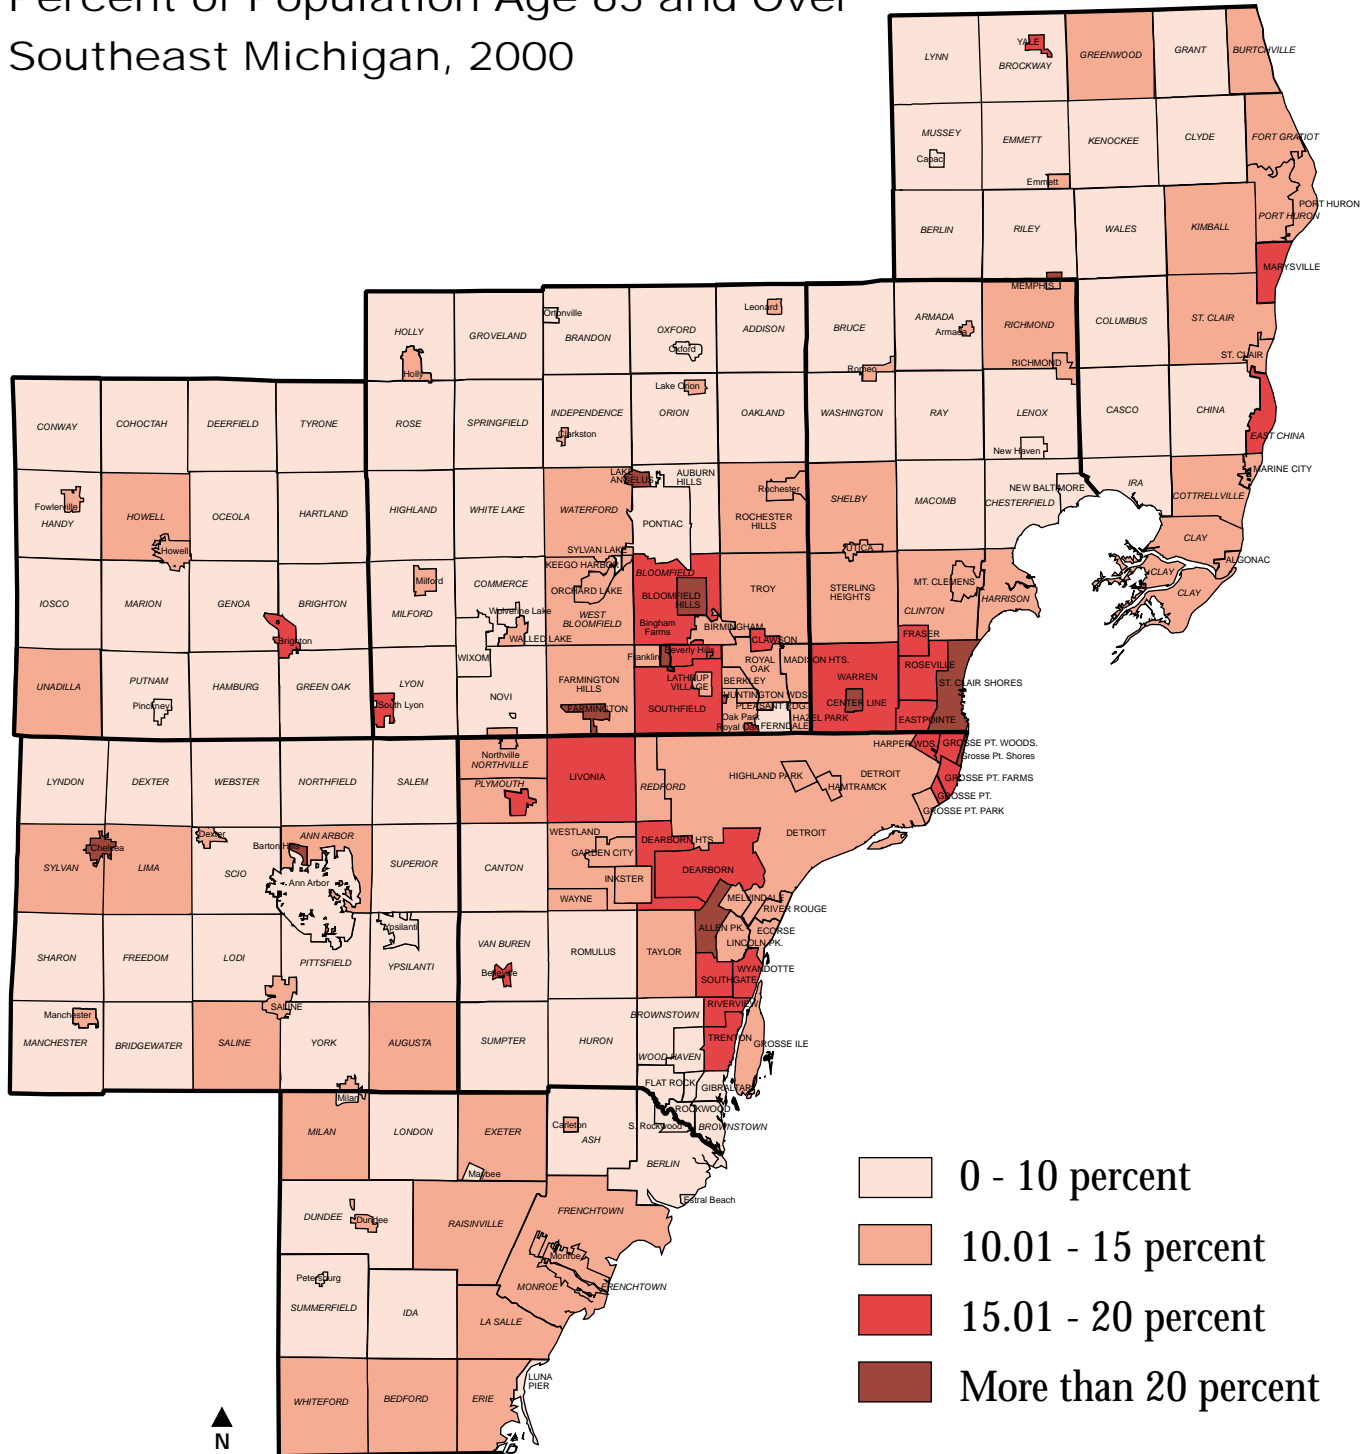

SEMCOG has a long history of planning for elderly issues, at the state and regional levels, and is currently focusing on regional initiatives designed to help local communities plan proactively for their aging populations. In addition to the forecasts, SEMCOG's Web site (www.semco.org) includes an Elderly Mobility & Safety page as a resource for local communities. It summarizes the status of ongoing state and regional initiatives and provides links to valuable resources, such as regional traffic crash data, a guide to sensible community planning for the elderly, and the Older Driver Toolkit (an Internet-based guide for assessing how friendly local communities are toward older drivers). Additionally, SEMCOG monitors and evaluates federal and state legislation and regulations that impact communities' abilities to adequately plan for the increased elderly population. SEMCOG maintains relationships with the Area Agency on Aging 1-B, the Senior Alliance, and the Detroit Area Agency on Aging.

SEMCOG is a regional planning partnership of governmental units serving 4.9 million people in the seven-county region of Southeast Michigan striving to enhance the region's quality of life.

Notes:

(1) SEMCOG RDF communities are composed of traffic analysis zones (TAZs), and in some cases do not match city, village, and township boundaries exactly. Therefore, some 1990 population and household numbers in the RDF are not the same as 1990 Census numbers.

(2) 1990 total population may not equal the sum of the age populations due to revisions to some communities' total population by the U.S. Census Bureau.

(3) Year 2000 total population and total household numbers by MCD are the same as Census 2000 numbers, except for the following areas:

A. City of Ann Arbor includes "township islands" of Ann Arbor Township and Pittsfield Township.

	2000 Population			2000 Households		
	RDF	Census	Difference	RDF	Census	Difference
Ann Arbor	115,012	114,024	988	46,113	45,693	420
Ann Arbor Twp	3,763	4,385	-622	1,568	1,836	-268
Pittsfield Twp	29,801	30,167	-366	11,665	11,817	-152

B. Marine City includes Cottrellville Township islands.

	2000 Population			2000 Households		
	RDF	Census	Difference	RDF	Census	Difference
Marine City	4,891	4,652	239	1,956	1,860	96
Cottrellville Twp	3,575	3,814	-239	1,288	1,384	-96

C. Pieces of Frenchtown Township are included in City of Monroe or Monroe Township.

	2000 Population			2000 Households		
	RDF	Census	Difference	RDF	Census	Difference
City of Monroe	22,174	22,076	98	8,634	8,594	40
Monroe Twp	13,495	13,491	4	5,314	5,312	2
Frenchtown Twp	20,675	20,777	-102	7,691	7,733	-42

(4) "Div/0" stands for "divided by zero".
