What is Supervised Parenting/Exchange?

- **Supervised Parenting** is the visitation by non-custodial parents with one or more of their children observed by a program staffperson at the Catholic Social Services office. This option may be court ordered when other visitation arrangements are determined to be inappropriate.
- **Supervised Exchange** is the supervision of the exchange of children from one parent to the other. Parents do not come into contact with one another during the process, which takes place at the Catholic Social Services office. Following the exchange, the visiting parent leaves to spend time with his/her children unsupervised.

Getting Started

Families participate in the **Supervised Parenting/Exchange Program** primarily on a referral basis. Before entering the program, both parents are required to schedule separate intake interviews enabling staff to evaluate each family's situation and answer any questions.
